Here is the Summer Home of Mister Jack Frost Himself

THIS is the Ice Cave in Mount Sir Donald, near Glacier, B.C. The light of the sun streams in through the opening at the far end causing the frozen walls to glisten as though built of a thousand times ten thousand diamonds. It is rumored that this is the official summer residence of Jack Frost himself, to which the Chilly Monarch retires for his annual nap from spring time to autumn.

And this is a scene from Mr. Frost's private grounds, on the roof of the world in the Canadian Pacific Rockies. It is here, so we understand, that Mr. Frost spends most of his time when not asleep in his Cave. For a pastime he enjoys most of all riding around on chunks of floating ice and his favourite food is a good, deep crackly glacier which he prefers coated with a generous frosting of newly fallen snow. When the winter comes and the nights are long and dreary he lets out a wild whoop of joy (so we are told), jumps on a passing snow cloud and sails away over the continent, pushing down mercuries and heaping up snow drifts wherever he goes.

But after all, nobody takes him very seriously these days, for it would be a tiresome old world to live in if Friend Frost didn't come along once in a while and give us something to contrast with the summer.

LOCAL NOTES OF INTEREST

While threshing on Mr. O. Burton Farm, Mr. Corriveau met with an accident when cranking his engine, but after Mr. Dobson rendered first aid he was able to go on with the threshing.

The Edinglassie U.F.A. meeting will be held on the second Thursday in October.

Mrs. D'Albertanson Sr. and Mrs. A. D'Albertanson made a week end visit to Edmonton, being the guests of Mr. and Mrs. A. Sim.

We are pleased to report that Mr. Alec Taplor who was recently badly burned about the hands and face, is making good recovery.

We note that Parcels and Harris are installing a Radio at their garage.

Crops seem to have been lighter further north.

Some threshers report tough grain, but most of them are going full speed.

Time to dig the spuds. Look at that liniment bottle.

Where is the \$2 wheat we were going to have this fall. Nevertheless the farmers wear a smile.

We note with great pleasure that the Village Council have cindered the bad spot in the road leading north east from town. That little spot was getting real bad and we trust our friends who come to town over that road will feel the benefit of the improvement.

A severe frost Saturday night nipped off much garden stuff.

Now begins a new indoor sport. "Shovelling coal."

Break the monotony of life—See Riches' show at Edgerton or Chauvin. These are high class films that have been shown in the better city theaters. Next weeks program includes "The Flaming Forties" and a comedy entitled "Out Door Pyjamas". At Chauvin Monday and Edgerton Tuesday.

Dr. Ternan recently installed a radio.

Saker's have some fine cabbages for winter keeping.

BATTLE RIVER CHURCH ANNUAL MEETING

The annual meeting of the Battle River church will be held from Friday October 16th to Sunday, October 18th.

Speakers: Rev. Egdahl; Rev. J. Akre Blomlie. Members and visitors are welcome.

I. J. W. RISVOLD, Pastor

WHEAT POOL STARTS MEMBERSHIP CAMPAIGN

Alberta grain growers are advised that the Alberta Wheat Pool has inaugurated a new campaign for membership and that this campaign is being conducted on a different basis than others in the past, either in Alberta or the two other prairie provinces.

The wheat pool idea had its genesis in this province. Here the plan was worked out. The legal details in connection with the incorporation, the memorandum of association, the members' agreement and the by laws, were first considered in Alberta, and, when carefully perfected, were the basis for the organizations subsequently brought into existence in Saskatchewan and Manitoba.

Much of the success of the pool method of marketing in Western Canada is attributable to the infinite care that was exercised in Alberta at the beginning when those in charge of organization had this work in hand. Alberta

paved the way. The wheat pool here has made remarkable progress. It has won the confidence of the people of this province. Those who entered it at the beginning are satisfied, and thousands who then waited to see how things would turn out have since joined the pool for the balance of the term of the contract namely, until the crop of 1927 is marketed

NEW FORT NORMAN WELL PRODUCING 100 PER DAY

New Well Yields 100 Barrels Per Day at Depth of 1,063 Feet

CALGARY, Sept. 21.—Further proof that oil in hopeful quantities in comparatively shallow shales on structures in the lower Mackenzie river valley, was brought out from Fort Norman by the Imperial Oil Limited drill crew which arrived in Calgary, Saturday morning, in charge of Angus E. Sutherland, veteran

(Continued on page five)

CARING FOR THE VEGETABLE GARDEN

(Experimental Farms Note)

The well-tended vegetable garden commands attention until the last root and stalk is harvested in late October. Among the little duties to be performed in September are the following:

Celery should be carefully mounded with earth and in such a way that the roots of the plants are not severely injured. The stalks may be held together with one hand to prevent soil getting into the heart as the plants are mounded up with soil. By late September only a tuft of leaves are seen emerging from the hill.

Onions should early be rolled with an empty barrel or light roller to induce bulb growth and ward off tendencies to produce thick necks. The crop is to be harvested before heavy frosts occur.

Potatoes are to be rogued, dig-

(Continued on page four)

INCREASE IN FOX FARMING

A large increase, both in the number of fox farms and in the value of those farms in Canada, is shown for the year 1924 over the previous year. Last year there were 1466 farms valued at \$10,813,833, as compared with 1,179 farms in the previous year, valued at \$8,284,384. An even larger proportionate increase is shown in the number and value of other fur bearing animals farms. The animals are: racoon, mink, skunk, marten, fisher, coyote, chinchilla and other kinds of rabbit and karakul sheep. In 1924 these farms numbered 84 and were valued at \$152,587, as compared with 48 farms in 1923, valued at \$99,445.

Motor Ether makes your car or threshing engine start easily on cold mornings. 95c per can McKee's Drug & Stationery

"Flaming Forties" is next weeks movie, at Chauvin Monday and Edgerton Tuesday.

CUSTOMERS, CASH REGISTERS AND PROFITS

It takes a steady flow of customers to your store to keep the cash register tingling with profit-making regularity.

Advertising in the Chauvin Chronicle would help to keep old customers interested in your store and bring new ones. It spreads the news about your store and its merchandise far and wide to the women of this community. Advertising is the most efficient, economical business-building force at your command.

Why not investigate the possibilities?

**OCTOBER 27th OPENING
DAY AT OLDS SCHOOL
OF AGRICULTURE**

Approximately one hundred applications have already been filed by young men and women for entrance into the School of Agriculture at Olds during the ensuing term. October 27 marks the commencement of the twelfth term at this institution; each term has seen a development in the curriculum and in the number availing themselves of an opportunity for sound practical training in agriculture and domestic science. Indications are that enrolment this year will be exceptionally heavy.

Beyond ability to read and write, students are requested to present no credentials; nor is expense a deterrent. There are no tuition fees; books and student activity fees total possibly twenty dollars per term, while board and room is available for young ladies in a properly supervised dormitory at the nominal rate of Twenty-seven Dollars per month. Accommodation for men is provided in private homes at Thirty Dollars per month.

In the agricultural course emphasis is placed on practical subjects, viz. Animal Husbandry, mechanics. The fundamental sciences of Chemistry, Physics, Botany and Bacteriology are taught in a way that co-relates them with the farm problems of the day. The aim behind the course in Domestic Science is the proper economic management of the home. Here again certain of the sciences form a ground work. English, Mathematics and Bookkeeping are features of both courses.

For students having completed the two year course in either subject, a further course of one years is offered a preparation for entering the Faculty of Agriculture (including domestic science). This matriculation course enables the student to enter the University degree course with a scholaristic standing equivalent to graduation from high school with the additional advantage of having one year of the course covered before entering the University. This course commences on October 19th.

Calenders and further particulars are readily furnished upon application to the Principal of the School at Olds. It is suggested that those interested place their application without undue delay.

**WAINWRIGHT CONTITU-
UCENCY W. I. TO HOLD
CONVENTION, OCT. 13**

The Wainwright constituency convention of the Women's Institute is to be held in Wainwright on Tuesday, October 13th inst. Afternoon session commencing at 2 p.m. and evening session at 7 j.m. Eeverybody cordially invited to attend this convention.

Minister: "Then you lon't think I practise what I preach?"
Deacon: "No, sir, I don't. You've been preaching resiga-tion for two years, an' you have not resigned yet."

* * *

"How do you know it was a stork, and not an angel that brought your little brother?"
"Well, I heard daddy complain-ing about the size of the bill, and angels don't have bills."

Who has been appointed to the command of the Empress of Scotland, flagship of the Canadian Pacific fleet in succession to Captain James Gillies who was recently appointed manager Canadian Pacific steamships in London. Captain Latta has been with the company since 1905 and for the last two years has been on the bridge of the Montroyal.

NEW COURSE OF STUDIES
FOR HIGH SCHOOL

A new course of studies has been perfected for Alberta High Schools.

While the subject matter is quite similar to the former subjects yet there are distinct innovations. Chief among these is, promotion by subject and not by grade, about which there seems to be a misunderstanding.

A student must take twenty-one units or subjects to obtain a grade XI certificate. He must obtain fifty per cent on each subject. In no case does he repeat subjects on which fifty per cent is obtained.

It is recommended that these twenty-one subjects be covered in three years, though a mature, brilliant hard worker might do it in less. But with average ability and attending 95 per cent of the time, doing two hours homework each night, three years are necessary. In the absence of these requisites we may expect the student will require longer. In some provinces no student is allowed to write a Grade XI examination until they have spent four years in High School.

To sum up, the new course students are promoted by subject, the standard is raised from 40 to 50 per cent., the time to complete the course can be varied according to the attitude and ability of the student or convenience and discretion of the parents

PESTS EXPERTS TO
MEET HERE

Farm pest experts will hold their 1926 conference at Lethbridge, Alberta, according to the decision at the meeting of the international crop report committee recently. The prairie provinces, and the states of North Dakota, Montana, Wisconsin and Minnesota will be represented. H. L. Seamans, dominion government entomologist at the experimental farm at Lethbridge, is secretary of the committee.

Don't fail to see "The Flaming Forties" full of interest for all. Thrills galore. Firey men with firey steeds. A real peppy picture. Featuring Harry Carey. The story for this picture is based on "Tennessee's Pardner". Also a comedy entitled "Out Door Pyjamas" will be shown. Next Monday at Chauvin and Tuesday at Edgerton..

TURKEYS PLentiful
IN PEACE RIVER

Encouraged by the outlet in Eastern Canada for the turkey crop, Alberta turkey raisers are rapidly increasing their output. According to the observations of Mr. J. R. Higgins of the Poultry Division of the Live Stock Branch, who has recently visited the district as far north as Peace River, the present season has been a very favorable one for turkey raising and that shipments east will be heavier than in the past.

The turkey crop for the Valhalla district alone is estimated at between three and four thousand birds and it is thought that there should be a total output in excess of one hundred thousand pounds of dressed turkeys shipped from Grande Prairie tributary points this fall. In the past the breeders from this section have shipped their birds live but this method proved unsatisfactory and steps are under way to organize community turkey kills this year.

Mr. Higgins further states that a number of turkey raisers in the Peace River district are showing increasing interest in the improvement of their stock and that many farmers made enquiries concerning the purchase of good gobblers.

BRITISH PETROLEUM
SHAREHOLDERS MEET

Shareholders of the British Petroleum oil company are to hold their annual meeting at Vancouver next Tuesday when a full report on operations in the Wainwright field will be disclosed. It is expected that the meeting will also decide what steps should be taken in regard to drilling another well in that field this year.

Director Tom Sugars of Edmonton is leaving for the coast in a few days to attend the meeting. He stated on Tuesday that there was nothing new to announce in regard to operations, while oil is being supplied to the C. N. R. as previously reported.

Another shipment of crockery arrived at Saker's.

It is hard to lose all your money—though very easy!

Insurance Inspector: "How did your husband happen to die so soon after getting insured for a large amount?"

Widow: "He worked himself to death trying to make the premium payments."

USE OUR WANT ADS

CARING FOR THE
VEGETABLE GARDEN

(Continued from page one)
 ging out and destroying diseased plants. The very best hills may be staked and tubers from these selected at harvest time as seed for the 1926 crop.

Corn to be canned should be handled quickly. Very little time should elapse between the breaking of the ear from the stalk and the sealing of the kernels in jars.

Carrots, beets and parsnips should not be allowed to dry and wrinkle in the sun after digging, but are best covered with vines or other healthy vegetation until ready for transporting to the cool storage chamber.

Lettuce and radish seed may still be sown in the cold frame or hot frame.

Melons and tomatoes require heavy covering in the early evening of a prospective cold night. A light covering is often more of handicap than a help in warding off frost injury. Melons should be kept off the soil by a shingle, board or brick, and turned part way round every few days so as to ripen evenly.

A few plants of parsley potted or placed in a box, watered and set in partial shade may be reserved for a supply or garnish. The boxes are taken inside before heavy frosts. The beautiful rich green of these plants is an attractive sight in winter.

Cabbage, if appearing to be mature, may be pulled to one side or twisted somewhat to break some feeder roots and thus ward off splitting of the heads.

Fly Tox for Fall Flies, They fall fast. 8 oz. bottle 50c; 16 oz. bottle 75c.; small sprayer free; large sprayer 50c.

Ten Thousand Alberta Farmers

WITH

One Million Acres of Wheat

Are now ready to join the Alberta Wheat Pool

A Commission of \$1.50 per Contract will be paid on all bonafide Contracts sent to Head Office.

Between September 28th and December 31st, 1925

The Campaign is open to the public and a commission will be paid to all canvassers except members of the Board of Directors and Employees of the Pool.

Delegates and Local Secretaries are eligible to canvass and to receive commission.

CONDITIONS OF CAMPAIGN

- (1) All Contracts sent in must be complete as to Signature of the grower, his Post Office address, land location, etc. If the Grower's name is not clearly written, print it.
- (2) A Canvasser's Report properly filled in must accompany each parcel of Contracts. This will show to whom the Commission should be paid.
- (3) Where the membership fee of \$3.00 is paid in cash by the signer, the canvasser may remit \$1.50 to Head Office and retain the balance as his commission.
- (4) Where the grower signs the note for \$3.00, the canvasser should see that the signature is properly witnessed. A commission of \$1.50 per contract will be mailed to the canvasser's address as shown on the canvasser's report accompanying the Contract.
- (5) Contract forms, Canvasser's Report forms, and self addressed envelopes, are being sent to all Wheat Pool Delegates, Wheat Pool Local Secretaries, U.F.A. Secretaries, and Secretaries of Municipal Districts, or you can write to Head Office for supplies.

you. See what you are buying,
Get what you want at real low
prices.

FIRE BLIGHT SERIOUS IN MANITOBA

Fire-blight, a bacterial disease
of apples, pears, and related
plants, so called because the
leaves of affected trees usually
turn a bright red-brown colour,
as if scorched by fire, has been
extremely bad in Manitoba this
season. Most varieties of apples
and crab apples were more or less
severely affected. Some hardy
pear trees and young mountain
ash were killed completely at
Morden.

RED CROSS ANNUAL CAMPAIGN IN ALBERTA

The Annual Campaign for funds
for the Alberta Division Cana-
dian Red Cross takes place in Oc-
tober throughout the province. On
October 31st the day known as
Red Cross Day or Health Day.

A special feature this year is
the system of Grain Donations,
by which gifts of grain in lieu
of cash are being solicited from
the farmers. All elevator com-
panies have been instructed by
the Western Grain Dealers Asso-
ciation to accept donations of
grain and to forward cash
cheques to Provincial Headquar-
ters.

This Grain Campaign will in no
Red Cross Campaign which is a
direct appeal for contributi-
ons towns and districts will plan to
and memberships.

It is hoped that all country
have a Red Cross Entertainment,
or Dance some time during Oc-
tober, preferably October 31st,
the proceeds to assist in reaching
the objective for that community.

Lantern Lectures and Campaign
literature as well as grain receipt
books and entertainment posters
are available at Head Office on
receipt of your name and address.
If desired Headquarters will ar-
range for speakers to address
meetings on behalf of the Red
Cross Drive.

If you want a good warm
sweater or coat for winter wear
see Saker's.

U.G.G. LOWERS HANDLING COSTS AT ELEVATORS

The voluntary reduction of 1 c.
a bushel in the handling charges
of street pool wheat by the U.G.G.
will be quite welcome in Alberta.
This reduction along with the is-
sue of participation certificates
on all non-pool grain bought at
street price will mean a consider-
able sum of money in the
pockets of Alberta Farmers.
These moves on the part of the
U. G. G. are one more indication
that the Grain Growers are al-
ways following their policy of co-
operating with the western farm-
ers

RIBSTONE W. I. NOTES

a sale of Home Cooking and serve
Afternoon Tea in the Municipal
Hall. Ribstone Saturday October
3rd 1925, from 3 o'clock p.m. to
6 o'clock p.m.

FORT NORMAN WELL PRODUCING 100 PER DAY

(Continued from page one)

northern driller for the company.
The Fort Norman crew reported
that in the well drilled this
summer a short distance from the
original discovery well, oil is es-
timated in quantity at about 100
barrels per day was struck in a
shale at a depth of 1,063 feet.

The new well was drilled to
a depth of 1,603 feet, when opera-
tions were suspended in order to
catch the last up-river boat to
civilization before freeze up.

At Same Depth

This production struck in the
new well is just about the same,
and at just about the same depth
as the original discovery. Both
wells are about 50 miles south of
Fort Norman post on the right
bank of the MacKenzie river,
within the Arctic circle.

After drilling through the Oil
shale at 1,063 feet, the log of the
well was as follows: struck lime-
stone at 1,086 feet which was
somewhat of a surprise at that
depth; drilled through it and
struck another stratum of shale
at 1,500 feet which continued to

1,603 feet where drilling was sus-
pended for the summer. While
decision whether the well will be
drilled deeper rests with head-
quarters in the east, the indica-
tions are such that the well may
be drilled still deeper.

The crew which came out from
Fort Norman in charge of Angus
E. Sutherland, driller in charge,
included Featherstone, second
driller; W. E. Wilson and Edward
Sutherland, tool dressers; H.
Whittington and Harold M. Gary,
firemen; W.D.G. Reid in charge of
commissary; and Jerry Lawson
cook.

The party made a record trip
out from the far north, having left
Fort Norman on Monday, Septem-
ber 7th, last, aboard the Al-
berta and Arctic Transportation
company steamer, "The Distrib-
utor." They report having ex-
perienced a good summer in the
far north with lots of fine, warm
weather.

The City of Quebec as Seen from the Air

The above photo, taken by Fairchild Aerial Surveys Co., of Grand'Mere, Que., gives a splendid birdseye view of the Old City showing the Chateau Frontenac in the foreground, and Dufferin Terrace, the Citadel and the St. Lawrence River winding its way up to Montreal.

Mark: "I could die dancing with you."

Mavis: "It's about to kill me too!"

"That girl is a regular talking machine."

"Worse than that. She's as two-faced as a record."

CROP REPORT

Issued by the bank of Montreal
September 24th 1925.

GENERAL: Although interrupted by rains, threshing generally is well advanced in the three prairie provinces and deliveries of grain to the country elevators are heavy; the grades thus far have been better than last year. In Ontario rains have delayed harvesting operations in backward sections, but threshing is progressing rapidly and all grains are yielding well above the average. In Quebec Province harvesting is nearly completed, and where threshing has been done the yield is reported to be above the average. In the Maritime Provinces recent unfavorable weather has delayed harvesting. In British Columbia threshing is practically completed. Details follow:

PRAIRIE PROVINCES: Edmonton District: Threshing interrupted by rain but weather now clear generally. Calgary District: Two weeks rain delayed threshing. Some sprouting reported. Weather now clear. Lethbridge District: Heavy rains stopped threshing which was about 25 per cent completed, and caused considerable sprouting weather now clear. Northern Saskatchewan District: Wet weather has delayed threshing and lowered grades in some districts. About 30 per cent of wheat threshed. Yields slightly better than expected. Wheat will average from 16 to 18 bushels per acre; little coarse grain has yet been threshed. Southern Saskatchewan district: Weather generally favorable for threshing up to end of last week. About 70 per cent of wheat threshed, and will average about 14 bushels per acre. Grain grading well, no damage from frost. No shortage of labor. Manitoba District: Threshing has been delayed by rain during the past week. Estimated about 60 per cent of wheat threshed. Deliveries continue heavy, and crop movement is two weeks ahead of last year.

PROVINCE OF QUEBEC: Corn will be a smaller crop than last year. Receipts generally con-

tinue to improve. Potatoes are about an average crop. Tree fruits are below the average. Tobacco has all been cut and is of good quality. Grass pastures are much improved. In western portions of the province the crops are generally above the average, and the lower St. Lawrence crops are good.

PROVINCE OF ONTARIO:

During the past fortnight cool weather has prevailed throughout the province. Rain has caused some damage to bean crop. Root crops are excellent except potatoes which are only fair owing to blight. Winter apples and pears are unusually fair crop, and plums and grapes are plentiful. Pasturages are greatly improved. Fall seeding practically finished.

MARITIME PROVINCES:

New Brunswick: Crops generally good; potatoes below average quantity by fair quality. Hay generally good. Nova Scotia: season satisfactory for all crops, but apples, but apples, which will be a small crop of but fair quality. Gravensteins are now being picked. Hay excellent. Prince Edward Island: Recent good weather has improved grain and other crops. Potatoes generally good.

BRITISH COLUMBIA: Grain 90 per cent of average crop; roots 80 per cent, potatoes 90 per cent; hops 100 per cent. Hop-picking is more than half completed. Okanagan apple crop estimated 60 per cent of average now confirmed. McIntosh apples are all in and winter varieties are now being harvested under ideal weather conditions. Pasturage improved, but still below the average.

CANADA MAY HAVE NEW OCEAN PORT

The Vancouver Sun publishes the following from Stewart, B.C. "Canada may have a new ocean port giving direct access to the sea from the Yukon territory and obviating the present necessity of crossing the United States territory from Skagaway, according to statements made by J. P. Forde, Dominion Government engineer, who passed through on his way to the head of Glacier Bay, an inlet west of Lynn Canal.

"When the boundary between Alaska and Canada was delimited, it ran east and west several miles north of the head of open water in Glacier Bay, but crossed a field of solid ice or glacier connected with the waters of the bay. Changing climate, unusually warm weather or some unnatural upheaval of the ice bed has caused the ice to disintegrate, Mr.

Forde declares, with the result that the open waters of Glacier Bay now extend past the Boundary line into Canadian territory.

"An outlet is feasible, provided a route can be found to connect with the Yukon River or other streams of the interior."

Once upon a time men were looked upon by women as their superiors.

GOVERNMENT LIQUOR CONTROL ACT OF ALBERTA

APPLICATION FOR BEER LICENSE

Public Notice is hereby given that the undersigned intends applying to the Alberta Liquor Control Board for a license to sell Beer by the glass, or open bottle, for consumption in conformity with the provisions of the Government Liquor Control Act of Alberta, and regulations made thereunder, with respect to the following premises:

Hotel premises consisting of Lots 1, 2, and 3. Block 7. Main Street and Second Avenue, Chauvin, Alberta, called Killarney Hotel, entrance on Main Street, room located in north-east corner of building.

Dated at Chauvin, Alberta, this 9th day of September 1925.

A World-wide System Of Financial Service

By telephone you can talk with your neighbour or with an individual thousands of miles away. By telegraph you can span the continent; by cable your message can girdle the earth.

In like manner you can use the service of the Bank of Montreal in little or large measure as the occasion demands.

You can transact business of a purely local nature or enter into financial dealings with people in any part of the world.

Like the telephone, telegraph or cable, our system of financial service is as extensive as are the needs of our customers.

Southern Alberta is Beekeeper's Paradise

Upper — Examining the bees in George Riedel's Apiary in the Coaldale district.
Lower — A colony of Bees in the Riedel Apiary.

Southern Alberta's irrigated districts, with their large fields of alfalfa and sweet clover, promise to become the beekeeper's paradise within the next five years.

Two years ago, less than 10,000 pounds of honey were produced in Alberta. Last year, 60,000 pounds were produced — and 32 carloads imported into the West to supply the demand. This year, on the C.P.R. irrigated project at Lethbridge, there will be produced more than 100,000 pounds. And this is just a start.

"Southern Alberta's irrigated districts will be shipping trainloads — not carloads — of honey to the markets within five years" declared Frank C. Pellatt, field editor of the American Bee Journal, Hamilton, Illinois, on the occasion of his visit to Southern Alberta late in July this year. "This is the greatest potential honey producing district in North America."

Today, one apiarist in the Coaldale district on the C.P.R. irrigated project has 600 colonies of bees. This man, C. George Riedel, came to Southern Alberta from California in the spring of 1924 and started with 200 colonies. In 1926 he will have

1800 colonies and will make more than 150 tons of honey. This year his bees will make him about 50 tons, and one wholesale firm having branches throughout the West is handling the whole output.

Each colony of bees makes about 200 pounds in a season, though one colony at the Lethbridge Experi-

mental Farm broke all records for Canada by making 472 pounds in the season of 1923. A record of 21 pounds in one day by one colony was made in 1923 when the bees at the Experimental Farm averaged 189 pounds for the season, the high record for the year at the experimental farms across Canada.

DISEASE ATTACKS PRAIRIE RASPBERRY PLANTATIONS

(Experimental Farms Note)

Plant disease survey reports from Manitoba and elsewhere in the Prairie Provinces indicate that raspberry plantations are widely affected by two destruc-

tive diseases, mosaic and leaf-curl. Unless every precaution is taken this excellent fruit crop is doomed.

Herbert and Ohta varieties are comparatively free, and it is strongly recommended that these two varieties be used when starting new plantations. Varieties such as Latham, King and Cuth-

berts are particularly susceptible.

The mosaic resembles mosaic on potatoes. The leaves are mottled light and dark green. For leaf-curl, the name itself will describe the symptoms of the disease.

Spraying and pruning operations are useless and a waste of time and money for these diseases. Whenever a new raspberry patch is started use the more resistant varieties obtained from plantations that are free from these diseases. Go over your plantation and remove inexorably all plants that you observe to be abnormal in foliage. Usually the affected plants are less vigorous. Take care that all suckers are removed, for a diseased plant produces ever after diseased suckers, and the fruit gradually becomes smaller and diminishes in berry substance.

It is hoped to put into practice in Manitoba a system of inspecting raspberry plantations similar to that in force in Ontario, but meanwhile every owner of a raspberry plantation is advised to practise self-help, otherwise his plantation is bound to prove a failure.

"Did her father give the bride away?"

"He thought he did, but I notice she's back there with her husband living at the old man's expense."

VERMILION SCHOOL OF AGRICULTURE NOTES

The school of agriculture has rented the top floor of the Imperial block, for a girls dormitory, for out-of-town girls, where they will room and board under the supervision of the two Domestic

Science teachers. This will add a great deal to the life of girls who attend the school. The cost per month will not exceed \$27. The lack of a dormitory has been felt ever since the School opened, and we feel sure that parents will now take advantage of the very practical course in Household Science.

STEADY PROGRESS
IN OIL DRILLING

Imperial Oil Well at Coalspur
Is Now Down 3,806 Feet

CALGARY, Sept. 21.—Imperial Oil Limited wells drilling throughout Alberta made the usual steady progress during the week just past, according to reports received on Saturday morning by Manager T. Draper in Calgary. The reports follow:

Coalspur well, drilling on legal subdivision 10, section 3, township 49, range 21, west of the 5th meridian, about 150 miles west of Edmonton, down 3,840 feet drilling, carrying down 6-inch casing which is now at 3,806 feet.

Rice Creek well, about 35 miles west of Nanton, down 2,270 feet, carrying down 10 inch casing, now at 2,256 feet.

Dead Horse Coulee—No report owing to bad condition of roads.

No. 5 Royalite in Turner Valley, 12½-inch casing cemented off, drilling again on Monday; depth 2,050 feet.

No. 6 Royalite in Turner Valley, successfully drilled, but bit lost at 1,210 feet, will run casing past it and resume drilling this week.

Cheese special for a week at Saker's 25c per lb.

ENTERTAINMENT
AND FAREWELL
AT RIBSTONE

"That Rascal Pat and Poor
Pillicoddy" Well Played
by Amateurs

Under the auspices of the Ladies Aid of Ribstone, "That Rascal Pat" and "Poor Pillicoddy" two farce comedies were presented at the Municipal Hall Ribstone September 52th.

To put on a farce requires no little skill, it is fully as difficult to put on a farce, and put it on well, as it is to put on a heavy drama. It is greatly to the credit of the local artists that they put on a farce, so well as they did without overdoing the situation or lines.

Like most farces, "That Rascal Pat" and "Poor Pillicoddy" depends for its success on it's humorous situation and its laughable lines. With both of these necessary attributes these particular farces are well supplied. The lines have much genuine humor about them and the situations are extremely funny.

The hall was full with an enthusiastic audience that was in complete sympathy with both play and players.

The program opened by the Sunday School children singing a song composed by Miss Hazel Walrath "Ode to Mr. McLeod"

Lloyd Gregory as That Rascal Pat, acquitted himself in an eminently creditable manner. Fred Winter as Chas. Livenston took his role with some ease and no little ability. Robert Tennant as Major Puffjacket showed a pretty talent for stage work and which could be developed into bigger things. Anna McCagherty as Laura, made a hit with the audience with her clever work. Violet Young as Nancy the maid, carried off a large portion of honors.

In the farce "Poor Pillicoddy" Mrs. Tom Young as Anna Stages, Miss Hazel Walrath as Sarah

O'Scuttle, Miss Elsie Dallyn as Julia O'Scuttle, Tom Young as Captain O'Scuttle, McLeod as Poor Pillicoddy. All acquitted themselves with every credit.

Recitation "Entertaining the Preacher"—Miss Olga A. Banks. was well applauded.

At the close of the program the Ladies Aid presented Mr McLeod the Student Pastor of Ribstone Mission who is leaving to attend college, with a writing case, Miss Dorothy Young announcing the Ladies Aid wishes, Mrs. Jas F. Russel presented the gift.

Mr. McLeod replied in a quivering voice, That his short term at Ribstone had been very pleasant, but however he had to be back at college in the course of two weeks, and that he wished to thank the contributors of the gift. I am reluctantly forced to sever my connections with you but I sincerely aver that Ribstone and the surrounding district will remain long in my memory.

Rev. P. F. McSween of Chauvin presided in his most capable and jubilant style.

The experience a man buys is seldom up to sample.

CLASSIFIED
ADVERTISEMENTS

LOST: ON NORTH ROAD BETWEEN Wainwright and Chauvin two bags containing saddlery belonging to "C" Squadron, 19th Alberta Dragoons, Chauvin. Finder please notify E. A. Pitman Chauvin, or J. A. MacKenzie, Wainwright and receive reward.

GIANT RHUBARB ROOTS: FOR Fall planting \$1.50 per dozen. W. Cargill or A. Herbert, Chauvin Orders by mail will receive prompt attention.

STRAYED TO MY PREMISES: Two roan calves, one heifer. one bull, No visible brand on either, about 5 months old. Owner may recover same by applying to P. O'Brien, Chauvin and paying expenses 590p

Here and There

The total handlings at the new internal government elevator in Edmonton, Alta., since its opening last fall, amount to 2,350,000 bushels. Of this quantity of grain handled, more than 2,000,000 bushels was wheat.

With the completion of the 1926 assessment for Toronto, the Chief Assessor announced that the city's population is now 549,429, or 7,012 greater than last year. The total assessment for 1926 is \$891,673,797, which is \$16,259,443 higher than for 1925.

A new high-water mark for the 1925 season of navigation in regard to number of passengers landed at Quebec over a week-end, was established during the week-end of September 6th when six boats docked with nearly 5,000 passengers. The three Canadian Pacific steamers, the Montroyal, Marloch and Melita, brought 2,524 of the total passengers landed.

Between four and five hundred travelling passenger agents, representing railway throughout the United States and Mexico, united with representatives of the Canadian railways and steamship companies in Montreal during the week ending September 19th, for the fiftieth annual convention of the American Association of Travelling Passenger Agents.

In succession to Captain James Gillies, who was recently appointed general manager Canadian Pacific steamships in London, Captain R. G. Latta has been appointed to the command of the Empress of Scotland, flagship of the Canadian Pacific fleet. Captain Latta was previously on the bridge of the "Montroyal" and other vessels of the same line.

Arrangements are being made for the holding of the western annual meeting in Winnipeg from November 3rd to 5th of the Canadian Institute of Mining and Metallurgy. The meetings will be held in the Royal Alexander Hotel. Delegates from all points in the West, as well as from Eastern Canada, are expected to attend.

A memorial known as "The Altar of Peace" has recently been unveiled in Stanley Park, Vancouver, to symbolize the spirit of international good-will existing between the United States and Canada. The memorial was raised by joint subscription of United States and Canadian Kiwanis Clubs, and stands on the spot where the late President Harding delivered the last speech of his life while visiting Canada, in July, 1923.

One of the largest shipments of live foxes for export ever to leave Prince Edward Island, left recently for New York for transshipment to Norway. The shipment comprised 200 foxes in all, with a gross value of \$40,000. Several small shipments of animals were consigned to Norway last year and this large order has followed the success which the Norwegian breeders have had with those animals previously sent from this country.

As illustrating the volume of grain delivered by the Port of Montreal compared with that of Vancouver, figures given by the Pacific coast port for the crop year ending July 31 last, show Montreal deliveries were six and three-quarters times those from the British Columbia port. Vancouver shipped 25,133,218 bushels of grain for the crop year ending July 31, while Montreal, during this period, disposed of 169,929,018 bushels.

The gold mines of Northern Ontario are now realizing aggregate profits of a million dollars a month, according to estimates compiled at Timmins, Ont. There was a gross income of \$2,650,000 during the month of June.
